Balance sheet by fund .....	52
Statement of operations and changes in unrestricted deficit by fund .....	53
Operating fund .....	54
Ancillary operations .....	63
Capital fund .....	68
Restricted funds .....	70

## RESTRICTED FUNDS

*Restricted funds* include donations (including endowments), research grants and contracts. Each donation, usually supported by an agreement between the University and the donor, or a collection of small donations with similar purpose, is recorded in its own fund, and managed according to agreed upon terms and conditions. Each research grant or contract is also recorded in its own fund and managed in accordance with the terms and conditions required by the sponsor of the funds. There are over 19,000 individual restricted funds.

Restricted funds exclude research grants for capital assets and donations designated for capital assets, both of which are recorded in the capital fund. When restricted funds are provided for, or spent on, capital assets, they are recorded in the capital fund.

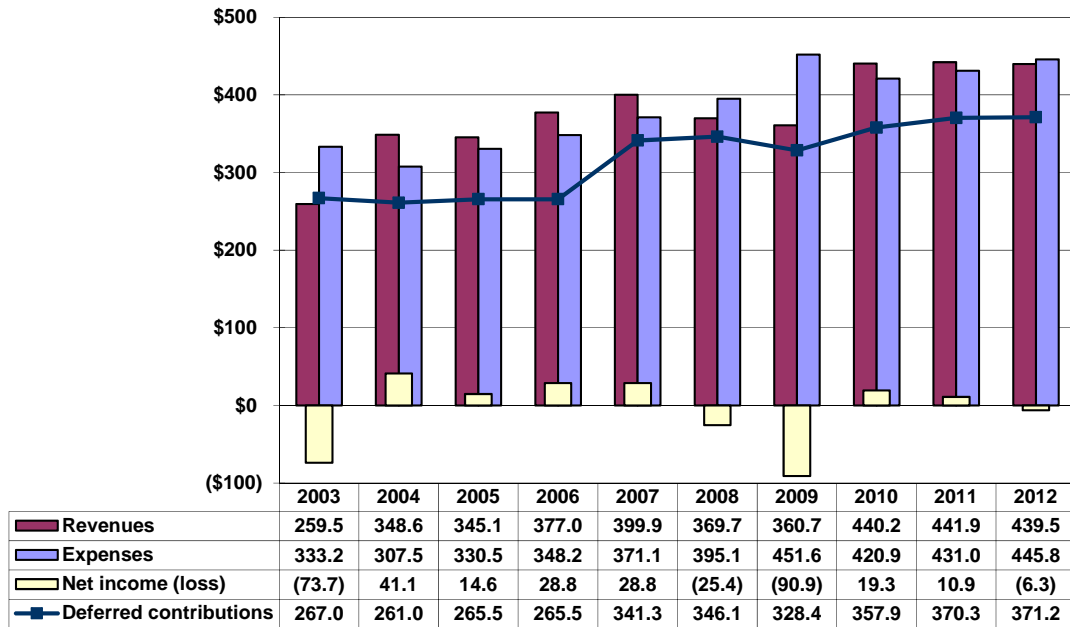

Financial reporting for restricted funds follows specific rules with respect to revenue recognition that differ from the rules for unrestricted receipts. They are:

- Restricted grants and expendable donations are recorded as revenue when spent, while unrestricted grants and expendable donations are recorded as revenue when received.
- Unspent restricted grants and donations are recorded as liabilities known as deferred contributions.
- Endowed donations are not recorded as revenue. They are added directly to the balance sheet as net assets.
- Investment earnings on externally restricted endowments that are made available for spending are recorded as revenue and the amount for preservation of capital is added directly to the balance sheet as net assets. In years where earnings are below the amount made available for spending, a drawdown is made from previously re-invested earnings. The amount made available for spending is recorded as revenue, and net assets on the balance sheet are reduced directly by the drawdown. Investment earnings or loss on internally restricted endowments are recorded in the income statement and the amount for preservation of capital or drawdown is recorded as a transfer to or from the endowment balance.

Restricted funds revenues for the year were \$439.5 million, expenses were \$445.8 million resulting in a net loss of \$6.3 million. Net income in any particular year mainly reflects the recording of unrestricted donations and investment income as revenue that was not yet offset by expenses. A net loss in any particular year mainly reflects the recording of investment losses on internally restricted endowments funded by a transfer from endowed capital and/or expenses funded by internally restricted net assets.

In 2009, investment losses reflected the very poor investment markets. No spending allocation was made from the endowment. Commitments normally met from the endowment payout were met from other sources of funds. After 2009, the University was able to make funds available for spending from the endowment.

**Restricted Funds  
Revenues, Expenses and Deferred Contributions  
for the Year Ended April 30  
(millions of dollars)**

Restricted funds assets were \$1.97 billion, liabilities were \$381.1 million, and net assets were \$1.59 billion. Net assets comprised \$1.52 billion in endowments and \$71.5 million in internally restricted funds.

At April 30, 2012, the restricted funds net assets decreased by \$19.6 million from April 30, 2011 as a result of a net loss of \$6.3 million and a further \$13.3 million as follows:

a) transfers from other funds:

- \$3.1 million from the operating fund as matching funds.
- \$0.7 million net transfer to fund future maintenance and bursaries.

b) endowed contributions and investment gains (losses) on externally restricted endowments, which are not recorded as revenue, but are added (deducted) directly to (from) net assets:

- \$23.6 million endowed donations.
- \$2.5 million Ontario grants and other endowed funds.
- \$43.1 million investment loss on externally restricted endowments.

As noted above, the majority of unspent expendable restricted funds are NOT recorded as net assets, but rather are recorded as deferred contributions in the liabilities section of the balance sheet. These liabilities have grown from \$274.4 million in 2003 to \$381.1 million in 2012 mainly as a result of the strong growth in research activity which is reflected in the expendable restricted funds on hand that have not yet been spent.

**Restricted Funds  
Balance Sheet  
as at April 30  
(millions of dollars)**

Net assets in restricted funds have grown from \$1.12 billion in 2003 to \$1.59 billion in 2012.

Schedule 6 reflects the change in endowment funds from April 30, 2011 to April 30, 2012 with the related expendable funds.

**Schedule 6**  
**(Unaudited)**
