Funding Funds Center or Fund Report

When to Use

This report displays budget (for Funds Centers, Original Budget is displayed along with Revised Budget); commitments and actuals; and revenue variance/funds available in a single Funds Center or Funds Center/Fund combination. This report can be used to identify budget to actual variances at the commitment item level and allows drill-down to the line item details. The report output is different when run for a Funds Center/Fund versus Funds Center alone.

Report Functionality

- Report can be run for a single Funds Center or Funds Center/Fund combination.
- Real time view of released budget, actuals, commitments, and funds available by commitment item.
- Drill-down functionality to the actual transaction document for budget (Funds Centers only), commitment and actuals by commitment item.
- Financial information for a single fiscal year and individual periods within the fiscal year.
- Overall 'life to date' financial information for Funds Center/Fund combinations.
- Full line-item reporting functionality (Funds Centers only).

Report Output

Report output for the Funds Center/Fund view:

- Commitment item
- Released Budget (no drill down)
- Commitments
- Actuals
- Total Commitments/Actuals
- Revenue variance/Funds available

Report output for the *Funds Center* view:

- Commitment item
- Original Budget
- Revised Budget
- Commitments
- Actuals
- Commitments + Actuals
- Revenue Variance/Funds Available

Helpful Hints

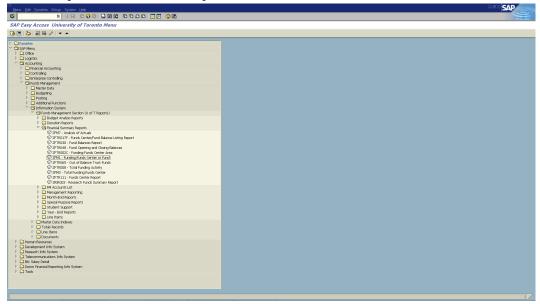

- This report provides a quick method for the comparison of actual spending to budget for specific expense categories.
- When this report is executed for a Funds Center (without a Fund) the report output is similar to the report output for the Funds Center Report (ZFTR111) and has similar functionality (i.e. drilldown on budget columns).
- Funds Centers with "Original Budget" funding (i.e. not PI Funds Centers) have the 'version 0' (Revised budget) loaded on the same detailed Commitment Item (CI) as the 'version 1' (Original budget). This facilitates detailed budget to actual variance analysis and has no impact on the Funds Availability Checking rules.
- For greater reporting flexibility, consider using the Funds Center Report (ZFTR111) when reporting on operating funds.

Detailed Procedure

1. Start the transaction using the menu path or transaction code.
